

The color of the map in the background is wrong.  
It should be darker.  
Here is a screengrab of the psd file to compare with:  
(i used 23% transparency of black for this)

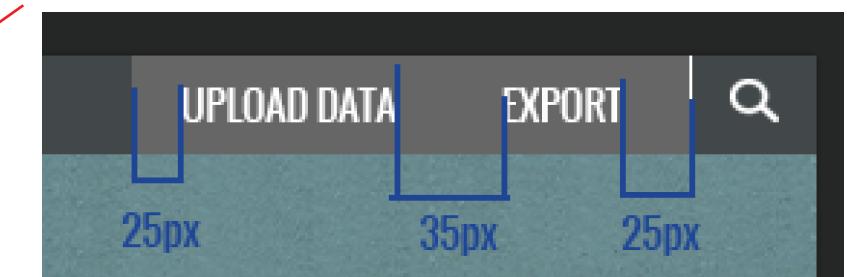

Please see revised size of button:

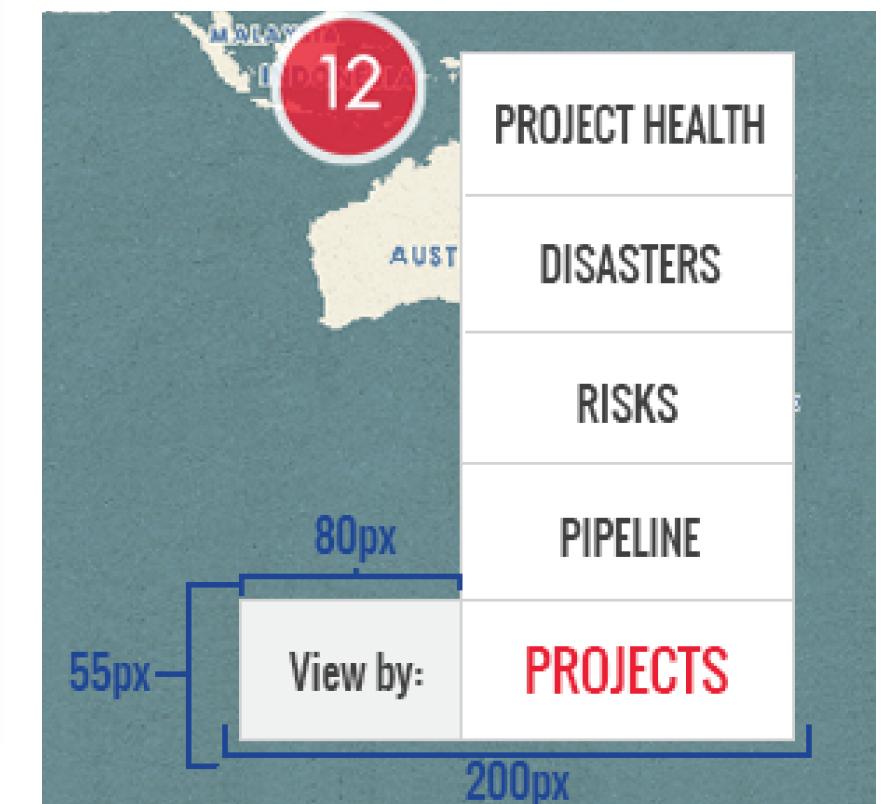

Can this area grow as sections are added to it? Currently it takes up a lot of map space for no reason and looks weird.

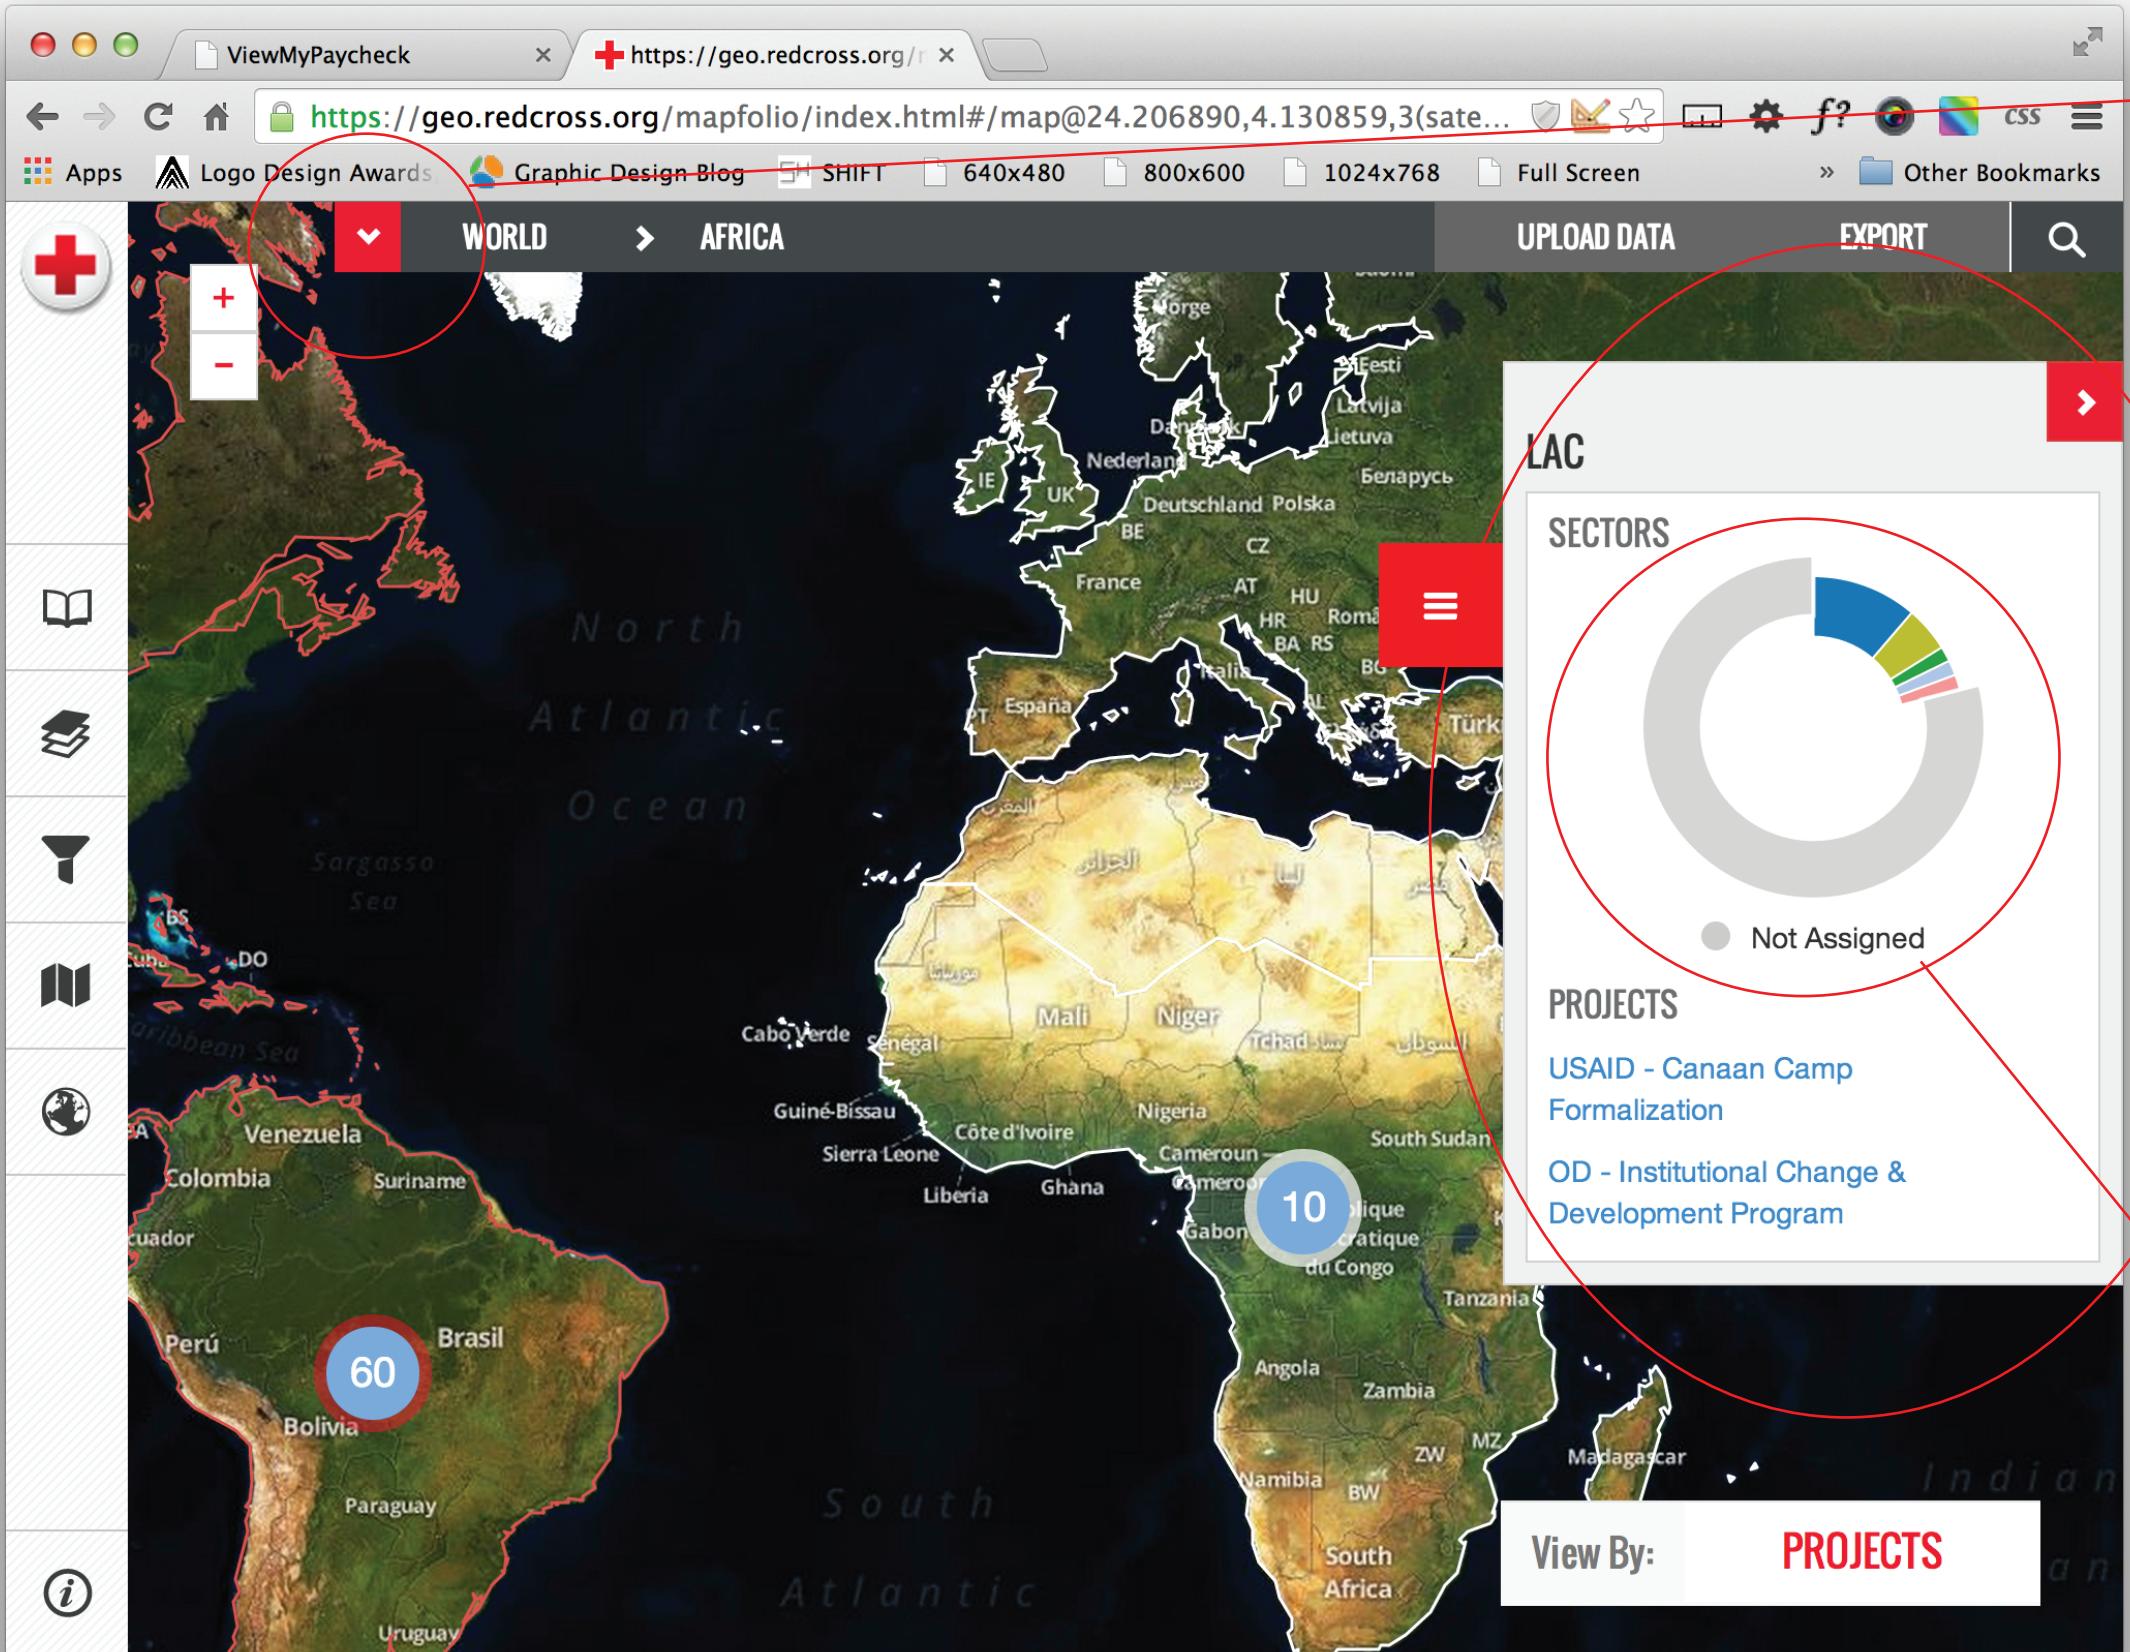

Correct spacing in this section:

I thought we were getting rid of this screen and going directly to the map after login.

correct dimensions of the view by section:

Can you please get rid of the blue outline around the red dropdown button (see screengrab below):

At 1024X768 the size of this popup info box is 280px X 560px. There's some wonky stuff going on with the dimensions of this div. It should always be as long as possible (currently it grows with browser window but it is short). It should end about 10-15 px above the "view by" strip.

Can this maybe be smaller?
